EXPERIENCE

FourCore

Breach & Attack Simulation Platform, New Delhi

UI/UX Design Intern → UI/UX Designer → Senior UI/UX Designer → Product Designer

Feb 2024 – Present

Case studies: [designwithaditi.in/work/fourcore](#) · [designwithaditi.in/work/fourcore-platform](#)

- Redesigned the FourCore website end-to-end (10+ screens, mobile & desktop) in a 2-month sprint.
- Leading design on FourCore ATTACK, the company's breach-and-attack-simulation platform, for 2+ years — building its design system from scratch and shipping 40+ new screens across 5+ major features.
- Restructured how attack simulation data is presented, turning dense security output into views users can read and act on quickly.
- Progressed from UI/UX Designer to Senior UI/UX Designer to Product Designer; now own problems end-to-end — research, flows, and shipped UI — while leading a junior designer and working directly with the product manager and engineering team.

PROJECTS

Formi

Independent Product Design · Ongoing

Physiotherapy platform · evolved from Proctify, a college project

Case study: [designwithaditi.in/work/formi](#) · [designwithaditi.in/work/formi-app](#)

Originally "Proctify" — a physiotherapy app for patients only, built with a 4-person team in college (Top 15, Smart India Hackathon; Top 50 Global, Google Solution Challenge). Independently reworked it into Formi, a full two-sided product neither Proctify nor its original team had scoped.

- Introduced a therapist-facing web dashboard the original concept never accounted for, alongside the existing patient app.
- Rebuilt the product from the ground up — workflow, information architecture, and a programme-delivery model connecting therapist and patient — not just the interface.
- Authored the complete PRD and design system: a 23-screen breakdown spanning both the therapist and patient experiences.

Conqr.ai

Solo Freelance · ~2 months

Legal AI assistant platform

Case study: [designwithaditi.in/work/conqr-platform](#) · [designwithaditi.in/work/conqr-landing](#)

Designed the single-scroll marketing landing page from scratch and redesigned the existing product (10-12 screens) solo, shaping a brief for an approachable, trustworthy legal AI experience into a calm, credible interface.

Autumn

Independent Project

E-book reader, mobile app

Case study: [designwithaditi.in/work/autumn](#)

A subscription e-book reader designed to feel as immersive as reading a physical book, with bookmarking, notes, and a signature feature: personalized, colour-coded tabs that slide out into a sticky-note-style panel without leaving the page.

SKILLS

Design: Product Design, UI/UX Design, Design Systems, User Research, Wireframing, Prototyping, Interaction Design

Tools: Figma, Figma Make, Sketch, Canva, Git, GitHub, GitLab

EDUCATION

B.Tech, Computer Science

Dec 2020 – Aug 2024

Maharaja Agrasen Institute of Technology · 8.91 / 10 CGPA

CERTIFICATIONS

UX Design — Accenture

Product Design & Development — NPTEL, 85%

Functional & Conceptual Design — NPTEL, 84%

UX Design Workshop — InnovateU

AWARDS

Top 50, Global — Google Solution Challenge 2022

Top 15 Teams — Smart India Hackathon 2022

Rank 4 / 150 — LiveTheCode Hackathon

Runner-Up — Evotech 5.0 Ideathon, BVPCOE

Top 50 / 115 — DotSlash 5.0

MENTORSHIP

UI Development Mentor — Girl Code It: ran a Git & GitHub fundamentals session for 300+ students, mentored 5+ mentees through a UI development bootcamp.
